

SUMMARY

Experienced full-stack engineer with over 10 years of relevant work experience, a strong front-end development focus, and a background in graphic design. Proven track record of leading engineering and design teams, building scalable web applications, and developing UI component libraries. Seeking opportunities to contribute to modern codebases using TypeScript, React, Tailwind, Node.js, and SQL.

EDUCATION

University of Illinois Chicago

Bachelor of Fine Arts in Graphic Design

Aug '06–May '10

PROFICIENCIES

Languages & Frameworks: TypeScript, JavaScript, React, Next.js, Vite, TanStack, Node.js, Fastify, Express, Gatsby, Lightning Web Components, Redux Toolkit, Zustand, PHP, SQL

Styling & UI: Tailwind, Sass, Styled Components, Storybook, CSS, HTML

Tools & Practices: Git, Jest, Playwright, GraphQL, REST API, WordPress, Agile/Scrum, Design Systems, Mentorship, People Management, Team Leadership

EXPERIENCE

Shopmonkey (Remote)

Senior Software Engineer I

Oct '25–

Engineering Lead

Oct '24–Mar '25

Senior Software Engineer I

Feb '24–Oct '24

Software Engineer II

Dec '22–Feb '24

- Full-stack development of web application features for cloud-based automotive shop software using React, Redux Toolkit, Tailwind, Node.js, Fastify, Jest, CockroachDB, and ClickHouse
 - Notable contributions to custom report building, data visualization, vehicle database integrations, cross-shop inventory management, new user onboarding, and enterprise multi-location management features
- Management and front-end development of UI component library using React, Tailwind, and Storybook
- Management of Reporting and Data Intelligence engineering squad with three direct reports
- Full-stack development of marketing websites using React, Gatsby, Styled Components, Next.js, GraphQL, and DatoCMS
- On-call support for incident response with PagerDuty

EXPERIENCE (cont.)

Later (Hybrid—Chicago, IL)

Senior Engineer

Jul '25–Sep '25

- Full-stack development of web application features for cloud-based influencer marketing campaign management software using React, Zustand, Vite, Node.js, Express, Jest, and Playwright
 - Notable contributions to campaign configuration, media library, and customer reviews

Agentuity (Remote)

Software Engineer

Mar '25–Jun '25

- Full-stack development and UI/UX design of web application features for AI agent serverless cloud solution using React, Tailwind, Shadcn, Next.js, Node.js, Hono, Neon Postgres, and ClickHouse
 - Notable contributions to billing, native integrations, and data visualization features

Appiphony (Hybrid—Chicago, IL)

Design Manager & Senior UI Developer

Apr '19–Sep '22

Senior UI Developer

Sep '17–Apr '19

UI Developer

Jun '15–Sep '17

- UI/UX design and front-end development of Salesforce AppExchange applications for various clients and markets using Lightning Web Components and Aura
- Management of design and front-end development team with five direct reports
- Front-end development of UI component library using Lightning Web Components and Aura
- Full-stack development of employee and customer portals using Salesforce Experience Cloud, Lightning Web Components, Apex, and SOQL
- UI/UX design and full-stack development of marketing websites using WordPress
- Non-linear video editing and animation using Adobe Premiere Pro and Adobe After Effects

Frey Design (Roselle, IL)

Senior Developer & Senior Designer

Jan '14–Jun '15

Designer

Oct '13–Jan '14

- Full-stack development and CMS management of websites and web applications using WordPress
- UI/UX and graphic design of websites and print collateral using Adobe Illustrator and Adobe InDesign
- Branding and identity design using Adobe Illustrator
- Non-linear video editing and animation using Adobe Premiere Pro and Adobe After Effects
- 3D modeling of commercial real estate property plans using SketchUp
